Dear Anand E Dasrath:

I regret to inform you that effective immediately you have been Administratively Withdrawn from Ross University, School of Medicine for failure to register for the May 2006 AICM course. RUSM policy dictates that students must successfully complete the AICM course and pass USMLE Step 1 before advancing into the clinical curriculum. In order for a student to remain enrolled with RUSM, they must either be registered for courses and/or registered for the Boards. Once a student becomes inactive, they are Administratively Withdrawn from RUSM.

Please be advised that if you are a recipient of federal guaranteed student loans, we must inform your lender(s) that you have not attended Ross University since the last day you attended classes or rotated in a clinical clerkship. The impact of your withdrawal status on your federal guaranteed student loans will depend on your specific situation, applicable regulations and the terms and conditions of your loan(s).

Should you ever wish to resume your studies at Ross University School of Medicine, you will be required to submit an application for re-admission to the Admissions Department and be reviewed by the Admissions Committee. To do so, please complete an Admissions application, indicating the reasons of your withdrawal, and submit it to the Admissions Office.

Best wishes in your future endeavors.

Sincerely,

Michael Rendon

- Fail the Comprehensive NBME in three attempts
- Fail USMLE step 2 in three attempts
- Fail to abide by university policies set forth
- Fail to pass the USMLE Step 1 in three attempts and within one year after they become eligible to take this exam.

In order to be eligible to begin clinical core clerkship rotations, students must meet all of the following pre-requisites:

- Successfully complete all the requirements of the Basic Science Coursework.
- Complete successfully the course "Advanced Introduction to Clinical Medicine" offered at the beginning of the Clinical Science segment.
- Pass the USMLE Step 1 (see below).

CLINICAL SCIENCE SEGMENT

The Clinical Science Curriculum begins with the "Advanced Introduction to Clinical Medicine" (AICM) course. All students are required to take the USMLE Step 1 for the first time within 6 months of becoming eligible. Failure to do so will subject the student to be dismissed.

Following the 12-week AICM, there is a 17-week scheduled break during which students remain fully enrolled. (Aside from a private "Extra" loan for live board review course fees, students are ineligible for financial aid during this period.) Some students will use this time preparing for, taking, and passing USMLE Step 1. Students who have already passed Step 1 may begin clinical clerkships at any time during this period. Students who have not received passing scores and have not started clinical clerkship within that period may still preserve their "in-school" student loan deferment status by applying for an **academic leave of absence** extending up to 180 days from the last day of the AICM. Beyond this timeframe, students who have not resumed clinical training fall into repayment status on their student loans and must be reported as withdrawn, for most purposes, to outside agencies.

Passing the AICM course and USMLE Step 1 are required for continuation into clinical clerkships. During the remainder of the Clinical Science curriculum, all students must take and pass all the required core and elective clinical clerkships. In addition to the 12 weeks of the AICM course, the School requires 48 weeks of core clerkships and 30 weeks of electives, for a total of 90 weeks of clinical training. These requirements are however, subject to change in the future, depending on regulatory and other academic requirements.

A final examination is given at the end of each clerkship. Students are also required to pass the USMLE Steps 1, 2 CK and Step 2 CS licensure examinations (see below).

ROSS
UNIVERSITY
SCHOOL OF MEDICINE

Certification by the ECFMG is required for entrance to residency training and licensure.

POLICY REGARDING UNITED STATES MEDICAL LICENSING EXAMINATION (USMLE), STEPS 1 & 2

The University has adopted the following policy regarding the United States Medical Licensing Examination:

THE USMLE STEP 1

The School of Medicine uses the USMLE Step 1 as one criteria of a student's overall knowledge necessary for entering into clinical clerkships.

Students become eligible to take the USMLE Step 1 when they have passed all courses in the Basic Science Curriculum, successfully completed the Advanced Integration to Clinical Medicine clerkship, and, have passed the NBME Comprehensive Basic Sciences Exam.

Students are required to sit for the USMLE Step 1 examination for the first time within 6 months after becoming eligible. Failing to do so will result in the student's administrative withdrawal from the school of medicine. Additionally, students cannot sit for the exam while on an approved Leave of Absence.

Students are required to take and pass the USMLE Step 1 in no more than three attempts, and within one calendar year of becoming eligible.

Students who do not pass the USMLE Step 1 in three attempts within a year after becoming eligible are dismissed from the School of Medicine. Such students may apply for readmission. If granted such readmission, additional preparation courses taken in Dominica may be recommended.

Those who receive very low scores on the USMLE in the first or second attempts may be required to repeat certain parts of the curriculum before they can be certified for another attempt. This will also depend on the time that has elapsed since they became eligible. These students are not eligible for financial aid.

Passing Step 1 is required by the University to proceed to the core clinical clerkships of the curriculum.

THE USMLE STEP 2 CLINICAL KNOWLEDGE (Step 2 CK)

The USMLE Step 2 CK assesses whether the student is able to apply the medical knowledge and understanding of clinical science considered essential for the provision of patient care under supervision, including emphasis on health promotion and disease prevention. Step 2 CK of the USMLE is taken in the clerkship years, after completion of the required clinical training. Passing Steps 1 and 2 CK and CS (Clinical Skills) of the USMLE are requirements for graduation and acceptance into residency training.

It is our hope that you will one day join our more than 3,200 graduates now in service as medical doctors in the United States.

In order to hold your place in this class, a deposit of \$200 is required to be made within two weeks of receiving this acceptance letter. An additional \$500 will be due at least 60 days prior to registration. Details are provided in the enclosed form.

In the coming weeks, you will receive additional information on applying for a visa, travel to Dominica and course registration. Please note that your admission is contingent upon your maintenance of a satisfactory academic record, and that any test scores, letters of recommendation or other materials that have been submitted on your behalf, are of the same high standards as those upon which we based our acceptance.

Again, congratulations and best wishes. If you have any questions, I hope you will not hesitate to contact our office by phone (732-978-5300) or e-mail (admissions@rossmed.edu). We look forward to having you as a member of our student body.

Sincerely,
